## Email

seanghorchheat@gmail.com

## Address

#AsianII, Tuek Thla, Phnom Penh

## About Me

I am 22-year-old, Fresh graduate Computer Science from the Royal University of Phnom Penh with focus on Web Development. I have hands-on experience working with HTML, CSS, JavaScript, jQuery, Bootstrap, Tailwind CSS, React(JSX), Angular(TS), C#, ASP.NET, PHP, Laravel, SQL, NoSQL, Git and GitHub. I am particularly excited about the opportunity to apply my skills and grow as a Web Developer within your team, where I can gain more skills, experiences and learn from senior colleagues.

## Experience

### Personal Experience

**Present**

Nowadays, I have been working on my own projects, focusing on researching, exploring new technology, and learning new skills:

#### + Personal Projects

- Built a Hospital System base on some real world work flow
- Develop an eCommerce application for customers or users
- Develop a mini enterprise projects by separated 3 different projects

#### + School Projects

- Connect C#(Window Form) with SQL Server Management and apply design pattern
- Working with Laravel, and C#(.NET Framework)
- Convert Database into API using Laravel and XAMPP

### Simpaz Training

**2024(early)-2025(early)**

When i was on second-year i had a chance goes to training at Simpaz Training as Web Developer, that group was created by seniors from USA. And that time i was training and learning like

- Develop a static website like using HTML, CSS, JavaScript, Bootstrap and JQuery
- Strong foundation Angular Framework and TypeScript to working on Local Storage, Pipe, Guard, Model, Service, Http Client and Unit Testing
- About UX/UI design i was working on Figma and WireframeSketcher
- Basic Flutter and Dart Language(share from team Mobile-App)
- Basic skill of System Analysis and Design like Flow Chart and Data Storming
- Basic network, Ethernet cable
- GitHub
- A real structure Project (Angular Framework)
- Work in teams
- Leadership

## Education

### Royal University of Phnom Penh

**2023-2026**

Bachelor of Science, Computer Science and Engineering, Cambodia

## PROFESSIONAL SUMMARY

Strong Commitment, Well communication with other people, frankly, reliable, responsible, creative, ability to follow direction, Self-motivated.
