Address

#2004, Mean Chey, Stueng Mean chey 1, Phnom Penh

About Me

I am 21-year-old, fourth-years Computer Science student at the Royal University of Phnom Penh with focus on Web Development. I have strong fundamentals with HTML, CSS, JavaScript, JQuery, Bootstrap, C#, React(JSX), Angular(TS) and ASP.NET Core. I am particularly excited about the opportunity to apply my skills and grow as a Web Developer within your team, where I can gaining more skills and experiences from experienced developers.

Experience

Own and School Project

Present

Nowadays, I have been working on my own projects, focusing on using real structures, writing clean code, researching, and learning new skills:

- + My Own Project
 - Develop a mini enterprise projects
 - Built own RESTful APIs using ASP.NET and integrated with Front-end
- + My School Project
 - Connect C#(Window Form) to SQL Server Management
 - Working with Laravel, and C#(.NET Framework)
 - Convert Database into API using PHP and XAMPP

Simpaz Training

2024(early)-2025(early)

When i was on second-year i had a chance goes to training at Simpaz Training as Web Developer, that group was created by seniors from USA. And that time i was training and learning like

- Develop a static website like using HTML, CSS, JavaScript, Bootstrap and JQuery
- Strong foundation Angular Framework and TypeScript to working on Local Storage, Pipe, Guard, Model, Service, Http Client and Unit Testing
- About UX/UI design i was working on Figma and WireframeSketcher
- Basic Flutter and Dart Language(share from team Mobile-App)
- Basic skill of System Analysis and Design like Flow Chart and Data Storming
- GitHub
- A real structure Project (Angular Framework)
- Work in teams
- Leadership
